Art Unit: 1631

The disclosure is objected to because it contains an embedded hyperlink and/or other forms of browser-executable code. Applicant is required to delete the embedded hyperlink and/or other form of browser-executable code. See MPEP § 608.01. Hyperlinks and/or other forms of browser-executable code appear in at least the following locations:

- (a) page 37, line 20,
- (b) page 46, lines 12-13, and
- (c) page 47, lines 2, 4, 6, and 9.

The disclosure is objected to because of the following informalities. The instant application does not comply with the Sequence Rules (37 CFR 1.821-1.825). See MPEP 242420-2435. Sequences without identifying SEQ ID NOs (see 37 CFR 1.821(d) and MPEP 2422) appear in at least the following locations:

- (a) page 6, line 25,
- (b) page 9, line 24.
- (c) page 76, Table 1, and
- (d) page 78, lines 10, 14, 16, and 24,

Appropriate correction is required.

Claims 4-12 and 14-39 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly the claims have not been further treated on the merits.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 13 and 40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are vague, indefinite, and incomplete.

Art Unit: 1631

- (a) The recitation of "culturing tumor-conditioned media or osteosarcoma cells" (claim 13) is vague and indefinite because it is not clear how the culturing of a medium can result in the production of a polypeptide.
- (b) Claim 40 is incomplete because this process claim does not recite a positive process step.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-3 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 54 of copending Application No. 10/132,920.

Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 1-3 of the instant application are embraced by claims 1-4 of Application No. 10/132,920.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claim 13 is allowable over the prior art of record.
